

LIFT DO's

- Watch your step when getting in or out of an elevator to avoid tripping.
- Hold the handrail if one is available, and stand next to the walls, away from the door.
- Stay calm if you find yourself stuck in an elevator. Use the elevator's alarm button or emergency contact button to get help – don't attempt to pry open the doors.
- Reassure and calm anyone who is panicked about being stuck in the elevator. Stay quiet and wait for safety instructions.

LIFT DONT's

- Don't use an elevator in the event of a fire. Take the stairs instead.
- Don't get on an overly crowded elevator. It may be reaching its weight capacity, so it's better to wait for the next one.
- Don't engage in horseplay.
- Don't Rest on or push someone against a door.
- Don't attempt to pry open the doors
